Agnes Moran and Thomas Fitzgerald Married Wednesday

Simplicity marked the wedding in Englewood Wedneday last of Miss Agnes Moran, daughter of Thomas Moran, to Thomas Fitzgerald. The ceremony was performed at St. Martin's Church, 59th and Princeton, at 4 p m.

Miss Moran was attended by Miss Anna E. Spring. Mr. Waldron Moran acted in a similar capacity for Mr. Fitzgerald.

The bride was attired in a simple gown of white georgette crepe, the skirt of which was of ankle length. The wedding veil, draped all over, of soft net. She carried a shower bouquet of white roses.

The bride's attendant wore nile green crepe de chine with overdress of net. She carried pink roses.

Among the guests and relatives at the reception were: Mrs. Caseberg, Mrs. Bredlow, Mrs. Miller, Mr. and Mrs A Kemnitz, Mr. and Mrs. O. Kemnitz, Mr. and Mrs Schaack, Mrs. S. S. Spring, Mr. Karl Spring, Mr. and Mrs. McGrath, Miss Meta Bredlow, Mr. J. B. Cravens, Miss Mabel Schulz, Misses Moran and Miss Helen Springbrann.

Mrs. Myers of 7737 Sangamon St. is spending a few weeks in New York.

Little Benedicta and Dorothy Myers are at Longwood Academy.

Mrs Krauss of 7757 Sangamon has undergone an operation and is doing nicely.

On Saturday evening, Oct. 6th, 1917, the Jolly Junior Girls Club gave a Japanese Party at the home of Miss Blanche Weber, 7828 Emerald Ave.

Your Greatest Enemy

According to "Safe Milk" magazine, the best fed member of our household is that star boarder, Mr. Waste. He hangs around when we are not looking or thinking. He picks up a little here and a little there, and while we eat three times a day, he is always eating. It's up to us to get onto his curves, and the sooner we bounce on him the better.

Star Is Portrayer of Clever Women

A feminist in society is the role played by Mme. Petrova in "The Silence Sellers," the Metro wonderplay adapted from Blair Hall's story in "Snappy Stories," which will be seen at the Cosmopolitan Theater on Tuesday. Mme. Petrova demonstrates as Laura Sutphen in this production that even a society woman, who does not need to earn her living, may be capable of the brilliance, the ability to cope with a situation, that are expected from the latter-day feminist. In the nick of time Laura saves the reputation of her best friend, and gives her fiancee the aid that turns defeat into success.

Mme Petrova has made a specialty recently of parts calling for remarkable cleverness, taking special joy in portraying the roles of women able to take their full share in the battle of life.

Telegraphy in Night Schools

The Board of Education, through the evening school department, in co-operation with the Signal Corps of the United States Army, is offering instruction in telegraphy to men registered for the draft.

A class is being organized in the Englewood High School, Stewart Ave. and 62nd St., which will meet four evenings of the week, Monday, Tuesday, Wednesday and Thursday, at 7.30 Any man registered for the draft is eligible for admission to the class.

When a student has attained a reasonable proficiency in sending and receiving by the Continental Code and is called out for service, he may have the choice of going into the Signal Corps.

W. M. ROBERTS.

Eat More Fish

The Bureau of Fisheries urges housewives, particularly those near the lake, to use and preserve more fish. This is one of the best measures of economy in this time of high prices.

Fish meat contains as much body-building food as a beefsteak. It is readily digested. Eat fresh fish! Pay for fish, not for long-distance transportation. Salt fish, as herring, mackerel, etc., should be on your breakfast table instead of bacon.

Smoked bowfin, sharp and carp are three new fish just being introduced. Carp has been used by European countries for centuries. Try some fried, boiled, broiled, baked or stewed. The burbot is a fresh water cousin to the cod. The bowfin is an old-fashioned fish with a new-found use. It is found abundantly in the Great Lakes region. Try creamed bowfin on toast.

Eat fish! Cultivate the taste! Get the habit.

For advice, information, recipes, etc., write for pamphlets.—Department of Commerce, U. S. Bureau of Fisheries, Division F, Washington, D. C.

Restore Half of Boy's Face

Remarkable Operation Performed by Local Surgeons of Englewood on Lad Injured by Gun

With the skill and daring of surgeons on the battlefield, two Chicago doctors have restored almost the whole side of the face of Geo. Vincent, 12 years old, of Sault Ste. Marie, Mich., shot while playing with a double-barrelled shotgun. The charge tore away the lower jaw and part of his upper jaw, and his left arm at the elbow. Doctors in Michigan declared he could not live. His parents brought him to Dr. W. J. Hurley, head surgeon at St. Bernard's Hospital. He transplanted a rib as the lower jaw and chin; he then drew skin from the neck over the bone. Three months later the boy was sent home for a short time. Michigan dentists refused to make teeth for the boy, so Dr. Hurley requested to have him returned, and Dr. Oscar Strook, an associate of Dr. Hurley, made bridge work, using some of the boy's remaining teeth, by placing artificial ones over the rib which was made as a jaw. They were fastened into the boy's mouth last Wednesday, when Dr. Hurley, Dr. Alexander and Dr. Strook practically finished restoring the boy's face, leaving him with practically a perfect mouth. This is the first operation of its type ever performed in any hospital or anywhere in the history of medicine or surgery.

Uncle Sam Needs 10,000 Stenographers and Typewriters Now

Washington, D. C., Oct. 15.—Now that Uncle Sam has the young men of the country in training for military service, he finds that he needs 10,000 typewriter operators and stenographers and typewriters, both men and women, for the departments at Washington. The Civil Service Commission has notified all of its 3,000 boards of examiners that they should put forth their best efforts to secure these urgently needed workers. While examinations are now held weekly in 450 cities, the Commission states that arrangements will be made to have an examination held at any accessible place where a small class of applicants can be secured. The entrance salaries range from $1,000 to $1,200 a year. Promotion is reasonably rapid to those whose services prove satisfactory. No appointments can be made to these or other positions in the federal classified civil service unless authorized by the Civil Service Commission under the civil service law. Any information to the contrary is unauthorized. This is a splendid opportunity to serve your country. Examinations for stenographers and typewriters in the departments at Washington, D. C., are held every Tuesday, commencing at 9 a. m., and also every Thursday, commencing at 6 p. m. Full information may be secured from the Secretary of the Seventh Civil Service District, 13th Floor, Federal Bldg., Chicago, Ill.

What's Behind a Liberty Bond

There are twice as many cattle and swine in the United States as in any other country, with a total value of livestock products of more than $4,000,000,000.

Our corn crop is ten times greater than that of any other country.

Our wheat crop, though not all we had hoped for, is bigger than that of any rival.

Our cotton output is more than half the world's supply.

Our coal production is nearly half a billion tons, and is twice that of Great Britain, our nearest competitor.

Our oil production of nearly 300,000,000 barrels is twice that of Russia, which ranks second.

Our output of iron and steel is twice that of Germany, our nearest rival.

We produce more copper than all of the remainder of the world put together.

In manufactured goods last year our output was more than $36,000,000,000.

Our balance of exports over imports amounted to over $3,000,000,000.

Our gold reserve of about $3,000,000,000 is more than one-third of the world's total.

Our wealth is more than $2,000 for every man, woman and child in the country.

Our railroad mileage is more than double that of all Europe.

The total wealth of Great Britain, France and Germany amounts to $227,500,000,000. That of the United States aggregates $256,000,000,000.

The absorption of a second Liberty Loan appears a simple matter, in view of these facts, and comparing what has been done in placing loans in foreign countries.

The district convention of the Women's Relief Corps of the G. A. R. was held at Haley's Hall, Archer and Campbell Aves., on Friday the 28th. Department Commander Bennett gave a splendid address. Department President Mrs. Middlekauff made a delightful response. Mrs. Ella F. Work made an address, also Mrs. Alma Fleming. The various corps were well represented. Mrs. Alda Y. Barry was musician for the occasion.

On Monday, Oct. 1, Mrs. George Matthewson, 7201 Lafayette Ave., gave a luncheon for her sewing club. About eighteen were present and a delightful luncheon enjoyed by all.

For Rent—Modern brick garage, 8006 Emerald Ave. F. E. Wolcott.

What Makes a Car Old.

The life of the bearings of a car determines the usefulness of the entire machine. A car with badly worn bearings is an old car, even though it may have traveled less than 10,000 miles, whereas one which has seen 100,000 miles of use and still has its bearings in good condition is, comparatively speaking, a new machine.

Wear on bearings is determined by four conditions—the load which that bearing carries, the speed at which the bearing surfaces move over each other, the nature of these surfaces and their ability to resist wear and the lubrication which these surfaces receive and its ability to prevent the formation of the destructive heat of friction.

The matter of load becomes a matter of size, for with a given load it is but natural that with a large surface over which to distribute the pressure the load on each square inch of bearing surface will be less. This means that the life of bearings will, in general, be in proportion to their size.—Leslie's Weekly.

Essentials of Song Voice.

Many good singers only think their songs. These fall short of the powers they might attain. The listeners hear the music, but they are not thrilled.

Other singers have feeling, but they fail to display will. Their voices necessarily lack fiber and are too soft and sentimental. Such singing suggests merely passive sympathy and not the desire to help actively.

Good, honest sentiment and the ring of good will, implying action, are wanted in good music. There is no appeal in the song voice that only wills. The voice of authority and domination is not pleasing. The essentials of the song voice embrace all the singer's powers, faculties and attributes. They include not only will, but also thought and feeling, and that voice is lacking which fails to combine all three of these elements.—Exchange.

The Cabbage Butterfly.

The most destructive enemy of the cabbage and related crops is the cabbage butterfly. This lays its eggs upon a cabbage leaf. The eggs hatch into green caterpillars, and these eat the leaves. In 1883, says the Journal of Heredity, an ichneumon fly was imported from Europe to keep the cabbage butterfly in check. The fly lays its eggs in the body of the caterpillar; the larvae which hatch from these eggs eat the caterpillar's insides, cut their way out through the empty skin and spin cocoons from which the flies emerge.

"It is interesting to note," adds the Journal of Heredity, "that the parasite is in turn preyed upon by a superparasite, a little chalcis fly, 'and so on down ad infinitum,' no doubt."

Something Else to Catch Your Eye

October 5th was sure a big night;
Not a man in the Sub. was home,
For every man had taken his hat
And o'er to the Club did roam.

"Business first" is the slogan;
There was lots to be done that night
For the winners received their prizes
And to them it brought delight.

Well, after the biz. was over
They all began to talk;
Some men can't sit still very long
So they began to walk.
They walked and talked,
And talked and walked
Around Bush Brothers' place,
And all those gents went skipping home
With a big smile on their face.

And these dear gents deserve a smile
For the work they do is sure worth while;
They cut the weeds, and plow the snow,
And had the car line extended, you know.

Now the Club gives the men lots of pleasure
But you, dear men, while I've got the chance,
Do you know that us poor female mortals
Are waiting to hear of the dance?
—Mrs. Wm. Koss.

Mr. Hoger received first prize.
Mr. H Kohlpainter, OUR honorable president, received second prize.
Mrs. Wren received third prize.

Schuyler Colfax Rebekah Lodge No 808 was instituted at 20 W. Randolph St. on Saturday evening Initiation and part of installation took place. The remainder of the work will be completed on Friday evening, Oct 12, at above address. They will meet the second and fourth Fridays of each month.

Mrs. Charles McGarvie, 833 W 68th, wishes to express her thanks to her friends, and also the Royal Neighbor Camp No. 5581, for the beautiful flowers she received during her siege of sickness

Nice Things for The Little Tots

We must never forget the baby when we are purchasing Jewelry. We offer a few suggestions for the little folks:

Baby Spoons, Baby Rings, Baby Bracelets, Baby Lockets, Baby Pin Sets, Baby Bib Holders, Brush and Comb Sets, Baby Cups.

Remember its Birthday. Childhood presents are often treasured in later years.

A $100 bond will place a soldier on the firing line fully clothed, including overcoat, extra clothing, underclothes, shoes, rifle, bayonet, cartridge belt, two blankets, poncho, ninety rounds of ammunition and one day's rations.

If you can't serve in the ranks of the army you can at least aid the government to support those who represent you on the firing line. Do you know what a $50 bond will do? Consider. It will

Buy 1,500 rounds of ammunition, enough to supply sixteen soldiers going into battle.

Buy three Springfield rifles, complete.

Buy ten new rifle barrels to replace those worn out.

Pay one soldier for seven weeks.

Feed one soldier five months or a company of 150 enlisted men one day.

Equip one soldier with clothing complete for a three-year enlistment period.

Keep clothing of one soldier in repair and replace wornout clothing for two years.

Upon the farmer of the United States lies the responsibility of the success or failure of the second Liberty Loan. He can virtually make or break the government in the prosecution of this war.

When the first loan was related the farmers were tied up handling their crops in which their money was invested. The banks and residents of the cities then carried the burden.

Crops are now harvested and the farmer is receiving untold wealth for the production from the soil. The biggest crops in the history of the nation have been reaped. More than 1,000,000,000 bushels more grain was raised during the past season than in 1916, and the highest prices are being paid for it. Government reports show the biggest corn crop on record, 77,000,000 bushels more oats than a year ago, and so on. Wheat, though short this year, is above last year, and $2 a bushel is the price.

The farmers have the money and they should invest their profits in these Liberty Bonds. The government has been lenient with them in granting exemptions from military service pending the harvesting of crops, and the least the farmers can do is to reciprocate by upholding the government. The way to do that is to buy bonds. The investment is the best in the world—better than any other the farmer can find for his surplus funds.

The responsibility is upon the farmer and he will not shirk it. When the campaign for this loan has been completed it will be found that the farmer has done his share.

J. Paul Goode of the Chicago University delivered a lecture on the "Changing World" at Monday's afternoon session.

NEW DEATH TESTS.

How to Tell When Life Has Actually Ceased.

An Italian scientist describes the following three new methods of determining the cessation of life:

The first is the ether test. A drop of ether is instilled into the conjunctival sac of one eye. If this is followed by a reddening of the conjunctiva it affords proof that the circulation is intact and that life is still present. The other eye is used as a control.

The second test consists in the subcutaneous injection of fluorescin, which, if the individual is still living, is soon followed by a yellowish coloring of the skin, and mucous membrane of the mouth and particularly of the frenum of the tongue show this coloration most distinctly. A negative result is obtained in cases of marked slowing or enfeeblement of the circulation.

The third test consists in direct exploration of the heart by means of a stylet. This is introduced through a small incision in one of the intercostal spaces. Any movement in the heart is communicated to the stylet.

How to Walk and Grow Thin is the Main Question.

Here is a simple method to reduce weight which has been used with great success:

Rise early and take a half hour walk in the air, walking a steady but alert gait. On returning home drink a cupful of hot water with plenty of salt. After a light breakfast, leaving the table not quite satisfied, take a hand working vacuum cleaner or carpet sweeper with a long handle and keep up a steady, long reaching movement. This reduces the tops of the arms and removes the fat about the neck. Then take a duster and dust the legs of chairs and stretch to the tops of doors to get a steady bending and stretching movement. The treatment takes about two hours a morning, and by abstemious eating and occasional cupfuls of hot water with salt during the day, also one on retiring, the desired result is obtained and the health improved.

Gastronomy.

"How's your appetite?" asked the physician.

"It's all right till I go to buy food; then I get nervous and lose it."—Washington Star.

Goodness is the only investment that never fails.—Thoreau.

The Wise Fool.

"Money can't buy love," observed the sage.

"No," replied the fool, "but it comes in mighty handy for procuring the divorce."

In Wrong.

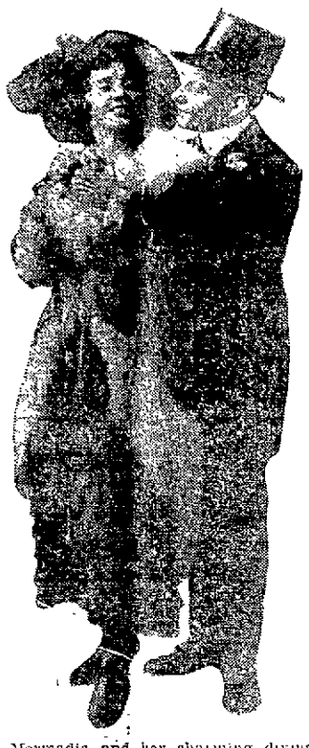
Old Adam liked to brag all day,
But Eve would tie a can
On his hot air when he would say
He was a self made man.

Englewood Theatre

The patrons of the Englewood Theater will have an opportunity next week of witnessing "The Lady Bucaneers," a burlesque attraction that is really a musical revue, without any "deep-laid plot," but a corking good company of principals and a chorus of nice young women who appear in a dozen or more cunningly contrived costumes that add materially to their physical charms.

"Spending a Million" is the name of the revue. The prominent parts in the comedy are taken acceptably by Fredrick Hackett, Frank Penny, Walter Benton, Frank Hanscom, Collin Snydam, Miss Flossy McCloud, Margaret Clark, Mabel McCloud, Annie Goldie and Pauline Jannis.

Most of the company are well versed in burlesque entertaining and there are few tricks in the art of making an audience laugh that they have not got at their finger tips. Quite a lot of popular songs and novel dances are interspersed throughout the entertainment, and there has been quite an expenditure for scenery and other artistic embellishments.



Mermadia and her charming diving beauties will appear in each performance in a series of aquatic sports that are both sensational and artistic. It is said that Mermadia is the champion lady swimmer and high diver in America, irrespective of claims to the title set forth by others.

The management has arranged for a week of unusual water competitions, and that local talent may have the opportunity to show their ability to swim and do fancy diving, there will be one night when any local male swimmer or diver may compete, and also a night when any local female swimmer and diver may compete. The men's contest will be held Tuesday night and the ladies' contest will be held Thursday night. The competitions are open to all comers and liberal cash prizes will be awarded the winners. All wishing to enter must have their name entered at box office not later than 7 o'clock on the nights of the contests.

Garfield Company, Illinois Volunteers, is now being recruited, with temporary quarters at 5457 S. Halsted St., where meetings are held each afternoon and evening. J. R. Mills, commanding officer, reports that there is much interest in the organization and men are joining daily for training. The Garfield unit promises to be one of the most vigorous of the many now being organized throughout the city under the laws of the state of Illinois and the State Council of Defense. The main body is called the Illinois Volunteer Training Corps and is an auxiliary of the Reserve Militia, I. N. G.

Information in regard to enrollment may be obtained from the Military Affairs Committee of Cook County, headquarters 120 W. Adams St., telephone Randolph 4350, or at the headquarters of the Garfield company, at 5457 S. Halsted St. Much enthusiasm is manifest in the new organization, which will begin to drill once a week at a local school house in the very near future. Those selected men who expect to go to Rockford, or some other of the numerous cantonments in this country later, will find the drill in this organization beneficial.

Joseph Jilka of 7104 Carpenter St. died last week after a short illness. The funeral was held Tuesday from his home.

When A Nurse Is Needed

One can be secured on short notice by Telephoning **Normal 3298.** The Normal Nurses' Registry sent nurses on a very large number of cases this year and in practically every instance complete satisfaction was expressed by those into whose homes the nurses were sent. On our register are some of the most proficient graduate nurses in the city, under-graduates who have nearly completed their training, and practical nurses who go into a home where there is sickness and give the benefit of their years of experience in practical nursing.

Bits of Byplay

By Luke McLuke

Copyright, 1915, the Cincinnati Enquirer

Eye Deal.

"My fellow is real nice to me
He sells glass eyes said Fan,
"He's just as fine as he can be,
He is an ideal man '

Mean Brute!

"Mrs Blank is very fond of animals," remarked Mrs Gabb

"Yes," growled Mr Gabb "I notice that she's always making a monkey out of her husband"

Huh!

"She is a picture said young Blinn
Her beauty is refined
And yet at times I find her in
An ugly frame of mind.'

Paw Knows Everything.

Willie—Paw, does a botanist know as much about flowers as a florist?

Paw—Yes, my son But he doesn't know as much about the prices people will pay for them

Hot and Cold.

He's nervy when he wins a pot,
But he's not hard to beat
So when the game gets too blame hot,
He always gets cold feet

Slow.

"Why do you state that women are slower than men?" demanded the suffragette

"It takes most of them forty years to reach the age of thirty," replied the Grouch

Ouch!

Canalboats sail where it is wet,
As everybody knows
They don't need any fingers yet
Can't travel without tows

Optimism

It could be worse When you have only one suit of clothes to your name you know that the moths are not eating the other suit—Cincinnati Inquirer Bless you, brother There's optimism that counts.—New York Evening Telegram

Names Is Names.

Seymour Leggives at Herkimer, N Y.

The Tramp's View

"The times are getting worse They offered me work at five different places today"—Flegende Blatter

Secondhand Goods

Your position in society is determined by the sort of secondhand goods you buy.

Perhaps you think this is a joke, but it isn't Think it over. When a man is poor he patronizes a secondhand clothing merchant. When he gets very rich he patronizes a secondhand furniture dealer Only the middle class shuns both secondhand stores

And the very poor and the very rich meet at a secondhand bookshop—Cleveland Plain Dealer

Just Reversed.

City Girl—That hen is acting very queerly, just as though she were hatching a plot Country Maiden—On the contrary, she is plotting a hatch—Baltimore American

Korea Eats Rice With a Spoon

While China and Japan take rice with chopsticks, Korea eats hers with a spoon Prediction is that the next step will usher in the broad fork "Whence comes this peculiarity?" asks the Korea Magazine 'One reason is that in the Analects of Confucius a record exists that the master ate his millet not with chopsticks, but with a spoon Every saying that pertains to Confucius is reverently regarded in Korea, and the people of that land would rather follow the master than present day custom —East and West News

The Servian Swineherd

In any Servian village there is only one swineherd, and he leads all the pigs of the community In the morning he goes through the streets blowing his horn, and the pigs come out of their own accord and fall in behind him and follow him to the pasture At night he brings them home, and they disperse to their sties in the same orderly way as they pass the houses to which they belong They require no attention and no singling out

Southern Mangrove

The rhizophora mangle, the southern mangrove is most curious in propagation The seed sends forth a shoot that really comes through the seed and grows to a foot long It then falls away and strikes root end down, in the mud and is at once a plant

She Got the Idea

He—I say, Dolly, may I take your photograph? You look so pretty that I feel I could eat you! She—Oh I see that's why you want me on a plate, eh?

PRACTICAL HEALTH HINT

Bites and Stings

In case of a sting of any kind the first thing to do of course, is to remove the sting This can best be done with the point of a knife or needle but care should be taken not to break the skin for fear of infection Then the next best thing, perhaps is to apply ammonia water or soda water to the affected parts

In case of bites as well as of stings when the sting is removed as a rule a paste of common baking soda applied to the affected parts or these bathed in ammonia water is all that is necessary Where the poisonous effect is severe, however, send for a doctor In the meantime the patient should lie down and keep quiet

An application of a 50 per cent solution of a saturate solution of potassium permanganate which you get at the drug store is very efficient for insect poisons and for the poisons of plants too, such as poison ivy and sumac

OUSTED

But the gates are always open to a woman said Julian Eltinge He fools sweetheart, friends and foes with the greatest impersonation of a beautiful woman ever seen Don't miss this wonder show

ARTCRAFTS WONDERFUL SPECIAL

JULIAN ELTINGE
"The Countess Charming"

HERE'S THE SENSATION OF THE YEAR It's sensational because it is wonderfully unique and without equal containing in the star the world's greatest feminine impersonator Julian Eltinge who makes his debut on the screen

JULIAN ELTINGE is a star that many millions have waited for for many years It was only after years of persuasive efforts that he consented to appear in pictures

HERE'S A REAL FELLOW who plays real women parts Personally he is a man's man and a thorough good fellow with the inimitable ability of making himself appear a beautiful and captivating woman

EVERYBODY WANTS TO SEE HIM, because this privilege has only been granted to a few cities where he appeared in stage productions The story written by the great Gelett Burgess and Carolyn Wells is a whirlwind comedy in which the audience is let in on the plot but in which the suspense is perfectly wonderful telling of this dual character who as a beautiful Countess steals to help himself to a bride It has always been said that no woman ever had a wardrobe like Mr Eltinge's and he wears many of his loveliest gowns in his production

Thursday, Friday and Saturday
October 18th, 19th and 20th

"Intolerance" at the Cosmopolitan

D. W. Griffith's mighty spectacle, "Intolerance," will be shown at the Cosmopolitan for three days, Thursday, Friday and Saturday, Oct. 18, 19 and 20.

Nathan Ascher had to spend two weeks of earnest effort in New York before the owners of the world's mightiest film spectacle would consent to an agreement permitting the showing of this production in family theaters at popular prices.

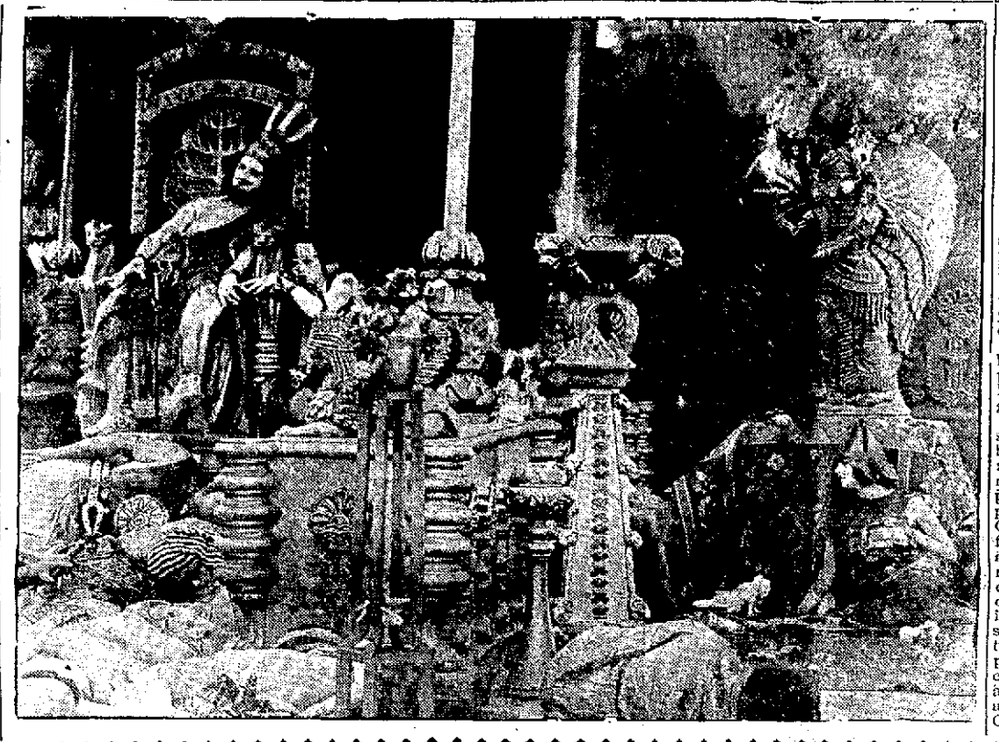
Twelve theaters at $300 a day rental had a significant ring, however, and the outcome was that Ascher Bros. secured this photoplay for three days each in their 12 beautiful film theaters.

The next obstacle was the price of admission to be charged. The owners declared for 25 and 50 cents. Ascher Bros. held out for 15 and 25 cents, and perseverance won again.

Mr. Ascher contends that $300 a day and the cost of extra advertising, along with the extreme length of the show, will not permit him to play to enough people in all the theaters combined to supply a profit.

He states that profit was his least idea—that his principal object was to maintain his policy of the best of the film world at family prices and that in an instance of this kind the appreciation and future patronage of his patron was worth more than the immediate gain.

"Intolerance" is in three acts and twelve reels, four reels to an act. It takes a showing time of two hours and fifteen minutes. The first afternoon show commences at 2 o'clock, the second at 4:15, the first evening show at 7 and the second at 9:15.



It is expected that every seat will be *taken at 7 o'clock sharp each evening.* Those holding tickets after the house is full will be advised by signs just when the next show commences.

For Ladies Only

Dear Madam:

You may think that your favorite actress or your favorite photoplay star is well gowned and well dressed, but it is conceded by the majority of screen stars that Julian Eltinge, the famous female impersonator, has one of the most complete wardrobes of feminine gowns in existence.

As "man to man" or "woman to woman" Mr. Eltinge will appeal to you immensely in this brilliant story of fun, thrills and high society.

Mr. Eltinge has won fame and a host of friends as the greatest impersonator of women in the world. He looks like a girl, speaks like a girl, you can't tell him from a girl.

Mr. Eltinge has appeared on the stage both in Europe and America in his well-known double roles and has recently been engaged by the Paramount Pictures Corporation to appear in screen productions. The first production is entitled "The Countess Charming," in which as a man he falls in love with a real girl, and as a Countess he, of course, praises the man to the girl, although her parents object strenuously. Because of his dual character, he soon finds himself in trouble with the police over the supposed demise and disappearance of the Countess when he has decided to play his male role entirely. The complications set in thick and fast and carry those in the film along at a speed which is remarkable. At the Cosmopolitan Wednesday.

Bits of Byplay

By Luke McLuke

Sure!

"According to your argument there is nothing in the world that will build up business quicker than a page ad.," said the merchant.

"Oh, yes, there is," protested the editor.

"And what might it be?" asked the merchant.

"A two page ad.," replied the editor.

Not a One.

Lives there a town with soul so dead
It never to itself hath said,
"Last year our team was punk, we funk,
But we will finish first this year!"

Whaddy Ya Mean, "Ceremony?"

Miss Geneva Edingfield of West Second street underwent an operation for the removal of tonsils and adenoids Monday, Dr. Reed Madden performing the ceremony.—Larchfield Gazette.

Question With Two Sides.

Bacon—If you want to live long keep active. Egbert—I don't know about that. Take the toads, for instance; they only live about fifteen years, and they are always on the jump.—Yonkers Statesman.
